

Bulletin 2023:2

6-2-2023

The following bulletins are effective immediately (6/2/2023) and are to be considered part of the 2023 Ultra4 Rulebook. This bulletin addresses minimum cage requirements and tire sizes for 4400 class cars as well as requiring a winch on all cars.

2.5 GENERAL VEHICLE COMPONENTS

2.5.14 All vehicles must have a functioning winch with a capacity rating equal to the weight of the vehicle. A winch is defined as a rotating spool, driven by a motor, either electric or hydraulic, that can tighten or loosen a cable. The cable must be made of synthetic material with a rating that is equal to or greater than the winch, no metal cables are allowed.

6 UNLIMITED CLASS / 4400

6.7.1 ~~Any and all tires are permitted providing they~~ Tires must be a minimum outside diameter of 37" (equivalent), as specified on the tire's sidewall by the original manufacturer and must meet all the additional rules and regulations specified herein.

6.8.1 All vehicles must have a cage that meets or exceeds section 2.6.2 with a minimum size of that listed for DVWR 3201 lb. (1452kg) - 4400 lb. (1996kg)
Cages less than 1.75" (45mm) diameter x .120" (3.0mm) wall thickness are not permitted.

All Ultra4 and King of the Hammers 2023 Rules remain in full effect for the entire season as amended by any bulletins until superseded by the next rules version.
